

SEPTAGE RECEIVING

Sewage General™

SG

The **Sewage General™** is a cost effective, permanent solution to eliminate the problems associated with uncontrolled sewage dumping into the municipal collection system.

EACH SYSTEM INCLUDES:

Insulated Stainless Steel Enclosure, Stainless Steel Piping, Access Terminal and Field Terminal Box.

Data communication with the system can be via a variety of methods, including direct (serial or ethernet), dial-up modem, 1x cellular and radio.

The **Sewage General™** interfaces with **Septage+™** System Administration Software.

OPERATION SEQUENCE:

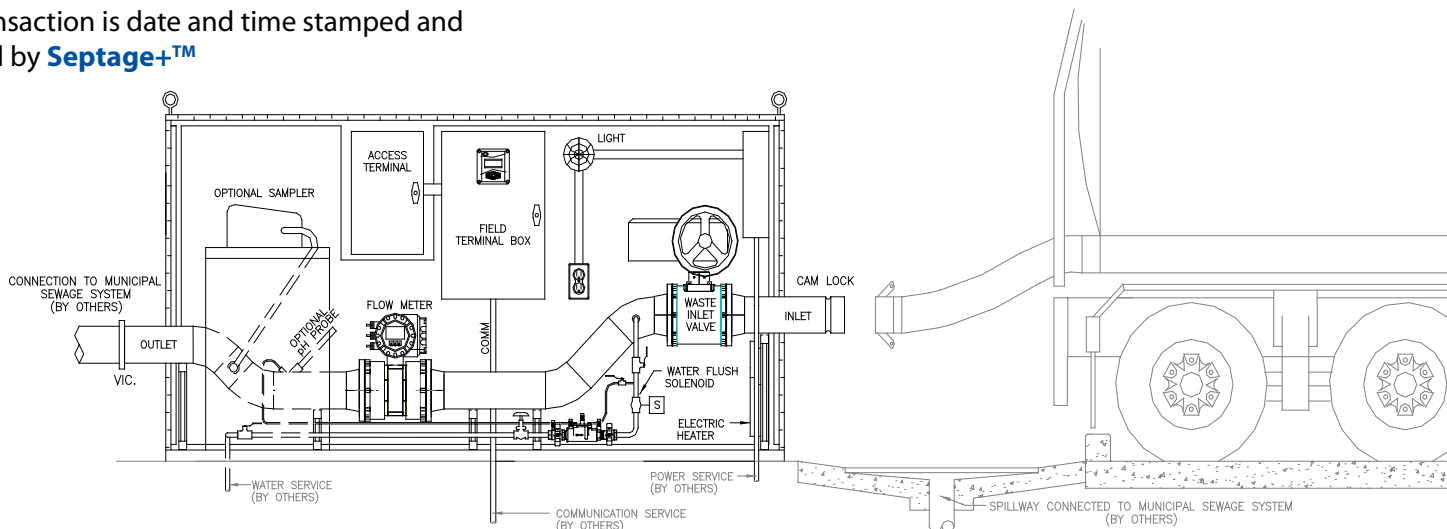

1. Connect fill hose to Septage Receiving Station
2. Proceed to Access Terminal:
 - ☑ Input 3 Digit Customer Access # – Press “Enter”
 - ☑ Input 4 Digit Security Pin # – Press “Enter”
 - ☑ Input Generator of Waste – Press “Enter”
 - ☑ Input Waste Classification – Press “Enter”
 - ☑ Customer account balance is displayed (for Pre-Paid Customers) – Press “Enter”
 - ☑ Input desired fill quantity – Press “Enter”
 - ☑ Press “Start” to open Wastewater Transfer Valve
 - ☑ Open Truck Transfer Valve to release waste
 - ☑ Press “Stop” to close Wastewater Transfer Valve

Wastewater Transfer Valve will close after 60+ seconds (adjustable) if “No Flow”.

Each transaction is date and time stamped and recorded by **Septage+™**
