

BULK WATER DISPENSING

Water General™

WG

The **Water General™** is a cost effective, permanent, turn-key solution to address your bulk water dispensing needs.

As with all our systems, the **Water General™** provides access security and the ability to generate significant revenue, while reducing administration costs.

EACH SYSTEM INCLUDES:

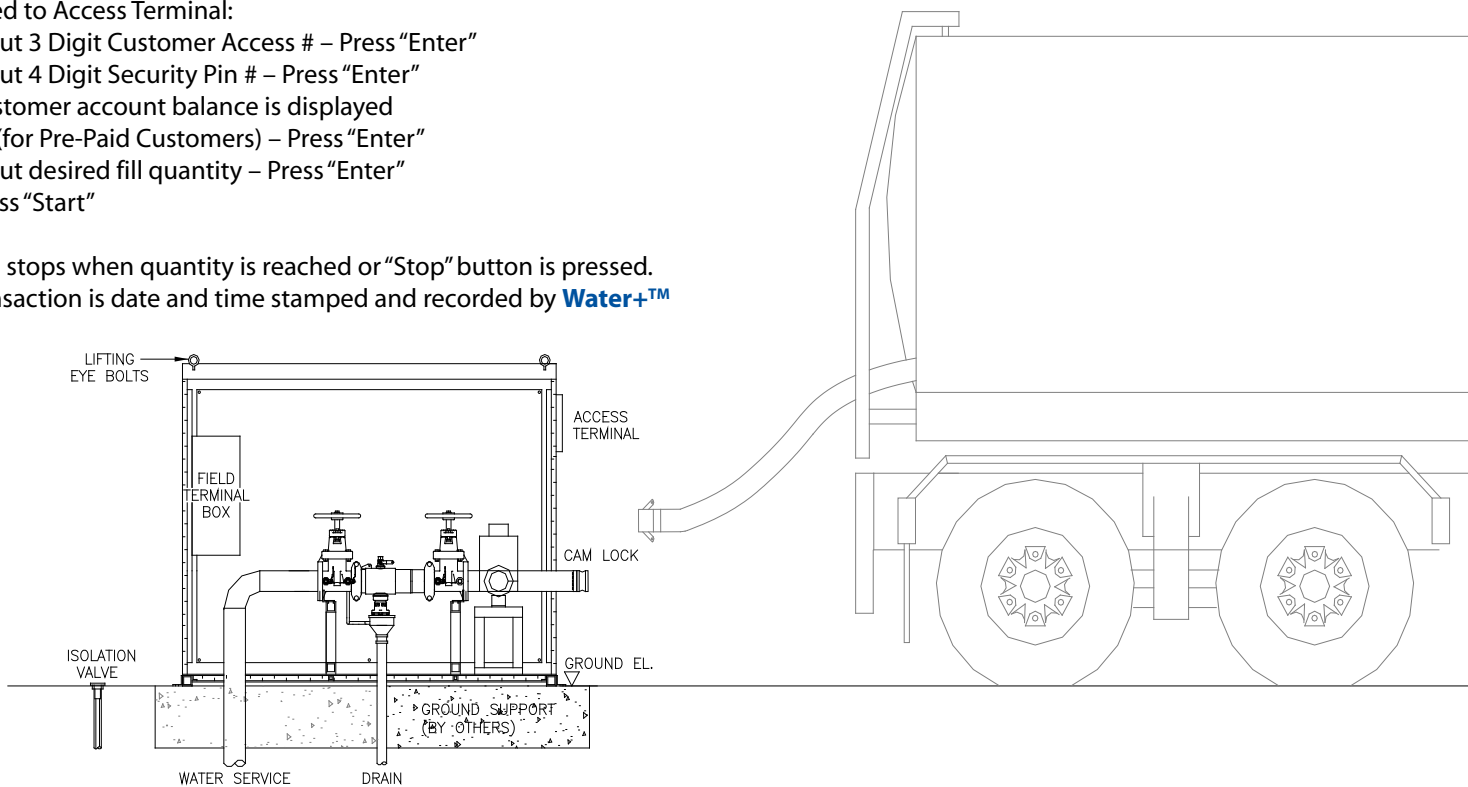

Insulated Enclosure, 3" Stainless Steel Piping, Backflow Preventor, Meter Valve, Access Terminal, and Field Terminal Box. Data communication with the system can be via a variety of methods, including direct (serial or ethernet), 1x cellular, and radio.

The **Water General™** interfaces with **Water+™** System Administration Software.

OPERATION SEQUENCE:

1. Connect fill hose to water tank
2. Proceed to Access Terminal:
 - ☑ Input 3 Digit Customer Access # – Press "Enter"
 - ☑ Input 4 Digit Security Pin # – Press "Enter"
 - ☑ Customer account balance is displayed (for Pre-Paid Customers) – Press "Enter"
 - ☑ Input desired fill quantity – Press "Enter"
 - ☑ Press "Start"

Pumping stops when quantity is reached or "Stop" button is pressed. Each transaction is date and time stamped and recorded by **Water+™**
